Education
University of Washington — PhD, Mathematics
University of Illinois — BS, Mathematics

Skills and Keywords

- Fluent in C#. Experience in Python, Java, and F#. Experience with Azure and AWS. Comfortable with many different software techniques (multithreading, asynchronous programming, functional programming, reactive programming). Back end and front end skills.
- Financial mathematics and design of financial mathematical software, including pricing and risk for equity and credit derivatives
- Understanding of financial data
- Experience building and supporting systems developed over a long term
- Strong writing skills
- Effective working with varied stakeholders; adaptable across tactical and long-term projects
- Team lead, domain expert, and project management skills
- Working familiarity with AI concepts such as LLM customization and reinforcement learning
- Front Arena integration

Experience

Sabbatical, 4/2025-present
Technology exploration and prototyping including:

- a prefect and postgres data pipeline for processing instructional movement videos
- developing a personal daily-planning mobile app using React/Expo.
- developing an AI-assisted document-editing workflow in collaboration with a team preparing a book based on lecture transcripts.

Softmax, San Francisco, 5/2025-11/2025 (remote, part time)
Consultant for AI startup focusing on research and AI alignment. Worked on a variety of projects, mostly around the reinforcement learning model training code.

Polygon / Tetragon , New York, NY, 7/2007-3/2025
Principal member of the Systems team. This team, which ranged from two to five developers over the years, had a wide mandate, responsible for building, integrating, and supporting custom and vendor software and data feeds within the organization. Over the period I have designed and developed many of the systems used internally, done significant work on many others, and provided day to day support for nearly all of them. Some highlights:

- Principal quant/developer supporting the Polygon Convertible Opportunity Fund (now Acasta partners).
